EDUCATION

Brigham Young University (Provo, Utah)

- Bachelor of Science in Electrical Engineering, expected April 2027
- GPA: 3.90 (Current)

EXPERIENCE

Part-Time Student Researcher (Smart Antennas Group BYU) – Provo, UT

Brigham Young University under Dr. Karl Warnick (January 2025 - Current)

- Solved complex engineering problems with limited assistance
- Collaborated with other engineers to accomplish goals
- Learned challenging concepts to accomplish objectives, including: Ansys Electronics HFSS, electromagnetic/antenna theory, MATLAB programming language, mathematical models, spectrum analyzer usage, and more

BYU Immerse Full Time Researcher – Provo, UT

Brigham Young University under Dr. Karl Warnick (May 2025 - September 2025)

- Delivered a technical presentation about personal research progress to a group of 50 researchers
- Collaborated with co-workers to accomplish research milestones in a full-time engineering position

Volunteer Missionary: Spanish Speaking – NYC, New York

Church of Jesus Christ of Latter-Day Saints (August 2021 - July 2023)

- Developed communication skills and overcame fears to invite and teach strangers about church
- Set and achieved monthly, weekly, and daily goals
- Learned conversational Spanish and spoke to native speakers every day
- Led and trained up to 30+ missionaries in the church missionary program

Construction Worker – CDA, Idaho

Yochum Landscaping (June 2020 - September 2020)

- Worked in challenging conditions to meet project requirements (heavy materials, rain, heat waves, long hours, etc.)
- Learned to operate various tools and machinery to organize and beautify landscapes

Small Mowing Business Owner – CDA, Idaho

Teenage Neighborhood Mowing (May 2016 - October 2018)

- Managed all aspects of a small mowing business that grew from 3 lawns (2016) to 10 lawns (2018)
- Built strong relationships with clients to ensure healthy continuation of business and quality services
- Developed responsibility and timeliness by scheduling and communicating between all clients

ADDITIONAL SKILLS AND EXPERIENCE

Programming Languages:

- MATLAB
- Python
- C
- C++

Extracurricular Projects

- BYU Spacecraft Club
 - rover project
- Recent Personal Projects:
 - 8 bit computer
 - ESP32 wireless messaging system
 - LCD display driver

Additional Accomplishments

- Open Water Scuba Diving Certification - PADI
- Ogden Marathon (26.2) Finisher 2025
- Top 10 Graduate of High School Class
